AIM

The aim of the college is to train and educate young women for Christian life and service by bringing them to physical, mental, emotional, social, and spiritual maturity, and thus preparing them for useful vocations and successful living in the home, the church, the school, and the world.

ACADEMIC STANDING

Flora Macdonald College is a member of the Southern Association of Colleges and Secondary Schools, and is recognized as a standard A-grade institution by the North Carolina State Department of Public Instruction.

The college is an Institutional Member of the National Association of Schools of Music and is accredited by that Association for the following degrees:

Bachelor of Music in Applied Music; Church Music Bachelor of Arts with a major in Applied Music.

Bachelor of Music Education

The college is also a member of the North Carolina College Conference, Southern Association of Colleges for Women, Presbyterian Education Association of the South, and the Association of American Colleges.

Flora Macdonald College

HISTORICAL SKETCH

Flora Macdonald College was founded in the year 1896 by Fayetteville Presbytery under the name of Red Springs Seminary. The career of the college has been as colorful as the Scottish heroine whose name she bears. Proud of its heritage, grateful for its traditions, the college has lived by and for her ideals.

While the year 1896 marks the date of its charter from which it has had continuous operation. Flora Macdonald College rightly claims the honor of being the natural successor to Floral College which flourished in a nearby location from 1841 to 1878. The Scottish Highlanders who emigrated to America and settled in the Cape Fear River area of North Carolina were men and women with deep faith in God and high regard for sound learning. therefore, not surprising that they, as well as their descendants, built churches and erected schools. Ingrained in the soul of every Scotsman is a love for religion and education. The establishment of Floral College was an expression of this two-fold passion. Loving their lassies, no less than their laddies, they sought to provide for their daughters equal advantages to those enjoyed by their sons. The high standing of Floral College is evidenced by the fact that it was the first school in North Carolina to grant diplomas to women.

Like numerous other institutions in the Southland, Floral College was closed during the Civil War but opened again in 1866 and continued until 1878 when it became one of the casualties of the period of reconstruction. During the Mid-Nineteenth Century, Floral College exerted a wide and marked influence upon the culture of eastern Carolina. The closing of the college left a great unmet need. Hundreds of the very choicest young women living on the Eastern seaboard needed a college which they could attend without the cost and inconvenience of traveling to distant institutions.

One of the leaders in the effort to meet this need was Reverend H. G. Hill, D.D., pastor of the nearby Maxton and Centre Presbyterian Churches. Others caught his vision to re-build a college in the vicinity where Floral College had In 1896 Favetteville Presbytery, by formal action, authorized the establishment of a Seminary for Women "somewhere in Robeson County or neighboring counties". A committee was appointed to select a location and launch the school. Most naturally a strong sentiment favored the old site of Floral College, but after considering the various offers, the committee selected Red Springs, which they found to be well located and long a center of religious and social activities. To bring the college to Red Springs, the college was offered a plot of four acres, four thousand dollars in cash and a promise of forty students. The gift of land was a donation from Dr. Luther MacMillan. who with Reverend S. M. Rankin was most active in the movement to re-establish a college.

While the college came into existence through the efforts of Fayetteville Presbytery, interest in its establishment and development was widespread, and in a brief time, both Orange and Wilmington Presbyteries joined in its ownership and control.

The first president, Reverend Charles G. Vardell, D.D., came to the college, a vigorous and energetic young minister, and building upon firm foundations, he erected an institution which has glorified God and exalted womanhood. In the face of obstacles which would have broken the heart and spirit of a man with less heroism and faith, he built soundly and well. Under his inspiring leadership and imbued with his spirit, the college gained rapidly in prestige and popularity.

Associated with Dr. Vardell was his gifted and consecrated wife, Mrs. Vardell, nee Linda Lee Rumple, a talented and finely trained musician, whose work in the department of music won such wide recognition in the entire South that

the name of the college was changed in 1903 to the Southern Presbyterian College and Conservatory of Music.

The college flourished. The original frame building was replaced by brick structures until seven units were completed. A curriculum in keeping with rising educational standards, was developed, a strong faculty was selected and oriented, the facilities of the college were increased and improved, the campus and gardens beautified until the college attracted students from many states and foreign countries.

A meeting of the Scottish Society of America, held in Fayetteville in 1914, was attended by Dr. James A. Macdonald, the internationally known editor of the Toronto In his happy association with the many Scottish people he found living in this vicinity, his imagination was kindled. He was also greatly impressed by the quality of work being done at the college in Red Springs. He saw in the young and vigorous college an opportunity for preserving the rich and age-long traditions of Scotland. He proposed a new name for the college, a name long treasured in the heart of every true Scotsman, the name of Flora Macdonald, a Scottish heroine who lived for five years in this section of North Carolina. The proposal was also made by Dr. Macdonald that the Scottish people in America raise a large endowment and thus, by bringing the college to the highest rank, make it a living memorial to the illustrious name and glowing deeds of Flora Macdonald. Under the inspiration of its new name and with the impetus brought by the support of an enlarged circle of friends and patrons, the college made significant gains, increasing its endowment and lifting its educational standard.

In 1930, after thirty-four years of toil and sacrifice, years which had witnessed the fruition of his dreams and prayers, Dr. Vardell resigned, becoming President-Emeritus. He was succeeded by Reverend Henry G. Bedinger, D.D., who for eighteen years served the college with a fidelity and devotion which has left a lasting impact upon the life of the

college. He brought the college successfully through the depression and war years, leaving it at the end of his period of service with an enlarged student body, a greatly strengthened faculty, the physical property improved, and the endowment and scholarship funds substantially increased.

Upon Dr. Bedinger's resignation in October 1948 to return to the pastorate, the Administrative responsibilities fell upon Mr. Halbert McNair Jones, Acting President, who was assisted by Mr. William G. Coxhead, Acting Vice-President. Mr. Jones, a prominent businessman and active Christian layman of Laurinburg, was also chairman of the Board of He and Mr. Edwin Morgan, who had preceded him as chairman of the Board, served the college with distinction for many years, bringing the college through each crisis to greater strength and stability. It was, however, during the interim between presidents that the vigorous leadership of Mr. Jones and the sound counsel of Mr. Morgan were most signally blessed for the good of Flora Macdonald College. During the period, instead of marking time or retreating, the college made definite forward progress.

Dr. Marshall Scott Woodson was selected by the Board as the third president and began his work in January 1950. A Presbyterian minister with a wide experience as the pastor of important churches, as well as a successful Navy Chaplain in World War II, he has displayed fine ability in directing the affairs of the college. The college is making excellent progress and looks forward with confidence to a period of unparalleled growth and expansion. Associated with him in the task of building a great Flora Macdonald is a staff of college administrators of proven experience and ability. In Dr. Price H. Gwynn, Jr., Dean of the College, Dr. Charles G. Vardell, Jr., Dean of the Conservatory. Mrs. P. P. McCain, Dean of Students, and Miss Hazel Morrison, Dean of Admissions and Registrar, the college has an administrative team which is unsurpassed. Flora Macdonald College, famous through the years for its unique spiritual

atmosphere and for the quality of its students, is winning wide recognition for the high quality of its academic work, as well as for the excellency of the training given in the Conservatory.

Flora Macdonald College is now facing its finest days. Under a grant of \$50,000 from the Ford Foundation, and with the aid and counsel of a group of the leading educators of America, a thoroughgoing study has been made of all the institutions of higher education controlled by the Presbyterian Church in North Carolina. The study was carried out under the guidance of a Commission of thirty leading ministers and lay people. Recommendations based upon this study were approved by the Commission and later adopted by the Synod of North Carolina at a historic meeting in July, 1955, by unanimous action. The official action of the Synod was to "establish in the eastern section of the state a four-year, coeducational college through the merger and consolidation of Flora Macdonald College, Peace College and Presbyterian Junior College". The new Board of Trustees of the consolidated college has been elected and already is actively engaged in promoting the new institution. Plans are being projected to raise funds to launch the new college with modern buildings, excellent equipment, adequate endowment, together with a faculty and a curriculum of highest standards.

It will probably be four years or more before the new college can be built. In the meantime, Flora Macdonald College will continue to strengthen and improve every phase of its work. Students entering college may expect to receive ever increasing advantages with the assurance that a diploma received from Flora Macdonald College will have even greater worth and value as the college enters this new era of expansion and growth.

GENERAL INFORMATION

LOCATION

Flora Macdonald College is located in Red Springs, Robeson County, North Carolina, a town twenty-five miles from Fayetteville, where direct railway connection is made with all points North and South. Red Springs, so called from the red sulphur water of its famous springs, is in the long-leaf pine section of the State, and the climate is the same as that of the well-known resorts of Southern Pines and Pinehurst, about thirty-five miles distant. The town is composed of people who have gathered together largely on account of the social and intellectual advantages offered by the College and who desire a thorough education for their children. It is an exceptionally clean town, both physically and morally.

CLIMATE-HEALTH

The location of the College in a climate that knows no excess of heat or cold and where there is free access to the mineral springs long celebrated for their medicinal properties, largely accounts for the remarkable health record of the school.

PHYSICAL CARE AND MEDICAL ATTENDANCE

The physical welfare of the student is made a prime object of attention. An Infirmary with private bath, hospital beds and every convenience for the care of the sick is under the constant supervision of a graduate nurse. A physician of training and experience visits the College and exercises general oversight of health and sanitation.

A physical examination of each student is made by the college physician, with a view to correcting physical weakness or defect. The institution has a trained director of physical education.

Parents need not infer that their daughters are seriously ill when sent to the infirmary, as they are required to remain there when not well enough to attend classes. In case of serious illness the parents will be notified promptly. If a special nurse is required, the student will pay for this nurse. Patrons must pay for prescriptions and consultations.

Parents are requested to have their daughter's eyes and teeth examined before sending her to school. This is important, and much valuable time may be saved by so doing.

All students are required to furnish evidence of vaccination whose potency includes the year of matriculation.

RECREATIONAL FACILITIES

Gymnasium, tennis courts, basketball courts, volleyball courts, badminton courts, hockey, soccer, and baseball fields, archery ranges, horse shoe courts, shuffle board court, table tennis tables, bowling alleys, out-door swimming pool.

BUILDINGS

The college plant consists of eight buildings, six of which are constructed in proximity to form one large brick building. A description of each with date of construction follows:

ADMINISTRATION HALL (1906) contains Parlors, Society Halls, Chemical Laboratory, Lecture Rooms, Home Economics Laboratories, and Christian Association Library and Reading Room.

EAST (1902) AND WEST (1905) HALLS contain twelve classrooms and sixty-five bedrooms. Each bedroom is equipped with a lavatory and two closets, and is furnished with twin beds, a dresser, table and chairs. Bathrooms are connected with the dormitories.

Morgan Hall (1904), which was the gift of the late Mr. Mark Morgan, of Scotland County, contains a spacious dining-room, a serving room and dish pantry, a fireproof kit-

chen, and forty bedrooms similar to those in East and West Halls. The second and third floors have been completely renovated with new plastering and hardwood floors.

VARDELL HALL (1910) contains the Library, office of the President, Dean of the College, Secretary, Business Manager, and Book Room on the first floor, and forty-two bedrooms on the upper floors.

THE LIBRARY is conveniently located and well equipped. It maintains a well-rounded collection of over 19,000 volumes, and more than 100 periodicals are taken regularly. A unique feature is the Scottish collection of history, biography and literature, the nucleus of which was presented to the college by Col. Walter Scott of New York City. The John Edwin Purcell collection has recently been given to the library.

CONSERVATORY HALL (1900). The first floor contains studios and practice rooms. On the second floor is the auditorium in which religious services and all public exercises are held.

PRAYER CHAPEL (1955). A dignified Prayer Chapel in Vardell Court adds to the spiritual life of the college.

LAUNDRY AND BOILER ROOM BUILDING (1909) houses the college laundry and heating plant.

THE GYMNASIUM (1938) is a frame building with a hardwood floor. It is equipped for indoor exercises and games.

J. KENNEDY TOD ART COLLECTION. Between thirty and forty works by artists of note were given by the late Mr. J. Kennedy Tod of Old Greenwich, Conn. Some of the artists represented are: Picknell, Julian Rix, Ben Foster, Bridgeman, Moran, Charles Melville Dewey, Piltz, and Roche.

The college employs a night watchman who makes an inspection of the buildings and grounds once every hour during the night.

RELIGIOUS LIFE

The College, being distinctly Christian, considers the development of Christian character its chief aim. The Faculty is selected not only for scholarship, but especially for sympathetic coöperation in carrying out this purpose.

The Bible is one of the textbooks, and all students take two years of Bible. Chapel is held regularly.

The churches in Red Springs are: Presbyterian, Methodist, Baptist, and Episcopal. Students are required to attend church each Sunday, and usually attend the churches of their own denominations. Students are encouraged to attend Sunday School and young people's vesper services in the local churches.

The Flora Macdonald Christian Association is an important factor in the spiritual development of the students. The Association organizes Prayer Bands each year on each dormitory hall. These meet under the direction of elected Prayer Band leaders. The Association emphasizes and encourages also the devotional study of the Bible, an intelligent study of missions, systematic giving, and social service. Contributions are made to the causes of the Church, and to other religious and secular objects. The Association conducts vespers one evening a week. Watkins Hall is the headquarters of the Association, where it has its own library, enlarged each year by contributions from students.

SOCIAL LIFE

The Social Committee of the Flora Macdonald College Faculty, together with the Social Committee of the various organizations and clubs such as the Christian Association, the Student Council, the Zetesian and Epsilon Chi Societies and others, plan and carry out a program which allows each girl to participate in social functions and to recognize the claims and obligations of social life. This program includes a variety of activities such as concerts, lectures, receptions, teas, formal and informal dances, and banquets.

HONORS

Flora Macdonald College has an Honor Society to which a very small percentage of seniors and juniors are elected each year.

At the end of each semester the names of students making the honor roll (an average between 95 and 100), and those making the Dean's list (an average between 90 and 94), are published.

Honors are awarded at commencement to those students who have achieved the highest scholastic standing in the senior class.

COLLEGE MAGAZINE

The *Pine and Thistle* is published four times during the year and is helpful to the intellectual growth and training of students.

COLLEGE PAPER

The Skirl is published twelve times during the year giving excellent training in the field of journalism and advertising, as well as in the use of correct English.

LECTURE AND RECITAL COURSE

A course of excellent lectures, concerts and readings is offered at a small cost to the students. The fee is included in the regular expenses, and a season ticket is issued after registration.

FLORA MACDONALD STUDENT GOVERNMENT ASSOCIATION

As soon as a young woman enters Flora Macdonald College she automatically becomes a member of the Student Government Association. The object of this Association is to regulate all matters of the student community which do not fall under the immediate jurisdiction of the faculty. The Student Government Association is governed by the Student Council in cooperation with the executive committee of the faculty and is under the supervision of the Dean of Women. Student Council is elected at the end of the third quarter each year by the student body, with the approval of the executive committee of the faculty. The purpose of the Council is to promote a joyous and wholehearted conformity to the ideals, aims and standards of the college by every student and to provide in the daily life of Flora Macdonald intellectual stimulation and social recreation. Every effort is made to give each student the opportunity to participate in the government and social life of the college. The task of the Student Government Association, through its leaders, is to help to develop an ideal college spirit in accordance with which each student governs herself, is considerate of the welfare of her fellow students, and is loval to her college. The hope is that through the life here in a Christian community, the morale and strength of the nation will be helped through faith in the democratic way of life.

MISCELLANEOUS FEES

REGISTRATION FEE. A registration fee of \$10.00 must accompany each application. Any preference in rooms will be given in the order of application. This fee is not returnable after July first.

ROOM RESERVATION. To reserve a room, an advance payment of \$25.00 is required by July first. This will be applied to the expenses of the first semester and is not returnable.

NOTIFICATION OF OPENING DATE. Ten days or two weeks before the opening of school, each student is reminded by letter of the opening date.

STUDENT ACTIVITY FEE. There are certain expenses, not included in the college charges, which are established by the students among themselves. These constitute a Student Activity Fund, amounting to \$17.00 a year. This amount includes membership in the Student Association, Athletic Association, Flora Macdonald Christian Association, Literary Societies, and subscriptions to the "Pine and Thistle", "Skirl", and "White Heather".

BREAKAGE CHARGES. A deposit of \$5.00 is required of all students in Bacteriology, Chemistry, and Home Economics to cover breakage or loss.

LABORATORY FEES. Fees for courses in Art, Biology, Chemistry, Home Economics, Business, and Education are listed under the respective departments.

GYMNASTIC OUTFIT. The regulation gymnasium outfit, which includes socks, shoes, and two washable suits, may be secured at the college for approximately \$12.25. Only one outfit is needed for the entire four years.

NAPKIN RING. Each new boarding student will be charged 75ϕ for a plastic napkin ring upon which her individual name will be stamped in gold. This charge is to be made only once and the napkin ring will be the permanent property of the student.

PAYMENT OF FEES. Fees for the first half-semester must be paid upon matriculation of student. No student will be enrolled until the payments required for entrance are made.

PROMPT PAYMENT OF BILLS. Students are not admitted to classes at any half-semester period until the bills are paid, unless by special agreement. Checks should be made payable to Flora Macdonald College and mailed to the Bursar.

SPECIAL COURSE PERMITS. A special permit is issued to students for each course taken in Applied Music, Student Teaching, Typing, and Office Practice. In case a student drops a course, this permit must be returned to the Bursar's office.

SEMESTERS. Two semesters, ending in January and June constitute the college year. No student will be received for less than the entire year, except by special arrangement. The matriculation of any student will be considered as a contract on the part of the parents or guardian (who will be responsible for the payment of all bills) for the entire year.

SELF-HELP. A limited number of students, by working one and a half to two hours per day, can earn \$150.00 of a year's expenses. Such work is performed in the dining

room, laundry, answering the telephone, or in other ways. These students receive credits of \$37.50 for their work at each of the four periods when bills are due and payable. All working students must be on the campus on the day that the college opens and remain until the college closes. Failure to report for work on time forfeits the position unless satisfactory explanation is given.

All correspondence regarding self-help should be addressed to the President. These scholarships are assigned in order of receipt of applications, and on the basis of the student's scholastic record and need. Only those who are unable to pay their expenses without aid are eligible.

Application forms for work scholarships will be supplied on request.

REDUCTION FOR MINISTERS' DAUGHTERS. A reduction in tuition of \$100.00 a year is granted Ministers' daughters.

BOOKS, MUSIC, STATIONERY. Students' supplies may be obtained at the College Book Store for cash.

LAUNDRY. Laundry work is done by the college laundry for which a flat charge of \$10.00 is made at each of the four payment periods. Students are allowed the privilege of sending 18 pieces each week. Of this total weekly allowance, there may be 2 dresses and 2 blouses or this equivalent. All excess laundry will be charged for at regular laundry rates.

INFIRMARY. The regular infirmary fee covers ordinary treatment and care but does not include cost of prescriptions or consultation fees by other than the College Physician. A registered nurse is in charge at all times. Should the student require a special nurse, she pays for this service. In case of serious illness, the parents will be notified promptly.

DIPLOMA FEE. A fee of \$5.00 is charged for a diploma. All fees must be paid before a diploma is awarded or before a transcript of college credits is sent out.

COST OF TRANSCRIPT. The college will furnish one transcript of a student's record free of charge. For additional copies there is a fee of \$1.00.

HOLIDAYS. During Thanksgiving, Christmas, and Spring Vacation holidays the dining room and dormitories of the college will be closed, but suitable quarters will be provided at minimum cost for students who remain.

DEDUCTIONS AND REFUNDS. No refunds of any nature are made because of the withdrawal of a student.

The policy at Flora Macdonald College has been to make the charge as low as can be consistently maintained in keeping with a high quality of instruction. However, the college reserves the right to increase rates at the beginning of any semester, if an unexpected rise in the general cost of living should justify the change.

ADMISSION

Flora Macdonald College welcomes students whose records indicate high moral character, sincerity of purpose, and ability to do college work successfully.

A student desiring admission is advised to apply early and to have her high school record sent not later than the spring semester preceding her graduation from high school. Blank forms for this purpose will be furnished by the college. After graduation from high school an additional form will be sent to the Superintendent with the request that the full record of the student's senior year be recorded and returned to the registrar. Final acceptance of the student by the college cannot be made before this record has been received.

Correspondence with reference to admission of students should be addressed to the President.

A registration fee of \$10.00 must accompany each application for admission. This fee will not be refunded after July first. Any preference in rooms will be given in the order of application.

ADMISSION TO THE FRESHMAN CLASS

The college requires for admission to the Freshman Class graduation from an approved secondary school with a minimum of sixteen units, or the equivalent of this requirement as shown by examination. However, graduation from an accredited high school does not necessarily imply unconditional entrance to the freshman class. This depends upon whether the student is able to present the entrance units which are prescribed for admission to the freshman class. In order to do this the high school student should take such courses in high school as will enable her to meet these requirements.

A graduate of an accredited high school or a student who has passed the College Entrance Examination, but who does not present the specified entrance units, must make up this deficiency before her sophomore year.

The prescribed entrance units for admission to the freshman class are the same for all degrees and are as follows:

English	4	units
Foreign Language		
Latin	2	units
or	(
Modern Language		
	2	units
Natural Science	1	unit
Social Science	1	unit
		units

In fulfilling the entrance requirement in Mathematics one unit of Algebra is required. The student is urged to offer the second unit in Plane Geometry or a second unit in Algebra. However, Business Arithmetic or General Mathematics will be accepted.

A student deficient in Social Science or in Natural Science will use the credit earned the first semester in either of these subjects as an entrance credit.

When possible, students are urged to present at least two units in each of two foreign languages, two units in Algebra, two units in History, and two in Natural Science. Other subjects in which elective credit may be offered are: Art, Bible, Music, Speech, Shorthand, Typewriting, Bookkeeping, Commercial Law, Commercial Geography, Commercial Arithmetic, Home Economics.

Any subject offered not included above must be approved by the Committee on Admissions who will consider its acceptance on the basis of the data furnished by the applicant's school.

Credit for less than one-half unit will not be accepted in any subject.

Credit for less than two units will not be accepted as fulfilling a subject requirement in a foreign language.

A graduate of an accredited high school who does not present the full entrance requirement in a foreign language may remove this deficiency by taking in her freshman year an elementary course for which she will not receive college credit, or by passing satisfactorily an entrance examination in that subject.

ADMISSION TO ADVANCED STANDING

A student applying for advanced standing must fulfill the prescribed entrance requirements for admission to the freshman class. She must send to the Registrar: (1) an honorable dismissal from the college attended; (2) an official statement of entrance and college credits. Certificates of courses successfully pursued at colleges and universities of equal grade with Flora Macdonald are accepted at their full value in so far as the courses taken correspond to courses offered at Flora Macdonald.

In order to enter college for a second year, the student must have passed a total of twenty semester hours with grades sufficient to entitle her to fourteen quality points. Summer school credits may be counted in this total.

In order to enter college for a third or fourth year, she must have passed during the previous year a total of twenty-four semester hours with grades sufficient to entitle her to twenty-four quality points. Summer school credits may be counted in this total.

SPECIAL STUDENTS

A student not less than twenty-one years of age may be admitted to such courses as she is prepared to take even though she cannot fulfill the requirements for admission to the freshman class. Later, should she desire to become a candidate for a degree, she must satisfy all entrance requirements. In exceptional cases a graduate of an accredited high school who wishes to follow a non-degree program for one or two years in preparation for some special work may not be required to remove an entrance deficiency in prescribed units. She will be classified as an irregular or special student and cannot become a candidate for a degree until prescribed entrance requirements have been fulfilled.

ADMINISTRATION OF CURRICULUM

REGISTRATION

When the student receives her registration slip from the Bursar, she reports to the faculty adviser to whom she has been assigned. After her schedule has been arranged and signed no change may be made without first securing permission from the Dean of the College.

LIMITATION OF HOURS

A semester hour is a period of one hour a week during one semester (one-half the scholastic year). One semester hour of credit is given for two hours of work each week in the laboratory.

The minimum number of hours of credit for each semester shall be fifteen, and the maximum seventeen; but in cases where permission has been secured from the Dean of the College the minimum number of hours may be twelve and the maximum nineteen.

Students must submit courses to their faculty advisers for approval.

CLASS ATTENDANCE

Prompt and regular class attendance is required of all students. A full discussion of the regulations regarding absences will be found in the Student's Handbook.

GRADES AND QUALITY POINTS

Grades are indicated on reports as follows: A, Excellent; B, Good; C, Fair; D, Barely passed; E, Conditional failure which may be removed by a re-examination; F, Failure without such privilege, the course to be repeated in class.

The quality point is taken as the unit of merit; for example, a grade of A gives three points, B gives two points, C gives one point, for each semester hour of credit.

EXAMINATIONS AND REPORTS

Semester examinations are given the last week of each semester. Written lessons, quizzes, and tests are given by each instructor as the program of his or her work requires.

Mid-semester reports are sent to students and to parents. Grades on these reports are not final, but are given to indicate the character of work the student is doing.

Semester reports are sent to students and to parents at the end of the first semester, and to parents at the end of the second semester. Grades on these reports are final and are so recorded on students' records.

Students making E on a subject will be allowed one reexamination on that subject.

Conditions must be removed within two weeks after the beginning of the following semester.

CLASSIFICATION

The classification of a student depends upon the amount of college work and the number of quality points she has to her credit, and not upon the length of time she has been in college. A student is classified:

- (1) As a Senior, upon the completion of ninety semester hours, with grades sufficient to entitle her to ninety quality points, provided that fifteen hours be taken each semester of the current session.
- (2) As a Junior, upon the completion of fifty-six semester hours, with grades sufficient to entitle her to fifty quality points, provided that seventeen hours be taken each semester of the current session.
- (3) As a Sophomore, upon the completion of twenty-four semester hours, with grades sufficient to entitle her to twenty quality points, provided that sixteen hours be taken each semester of the current session. No student will be admitted to the Sophomore class who has not removed all entrance conditions.

- (4) As a Freshman, if the regular admission requirement has been presented. Second year regular students who have not been admitted to Sophomore standing are also classified as Freshmen.
- (5) As an Irregular or Special student, if the regular admission requirement has not been presented, or if the regular courses of study are not followed.

RE-ADMISSION

In order to return to college for a second year, the student must have passed a total of twenty semester hours with grades sufficient to entitle her to fourteen quality points. Summer school credits may be counted in this total.

In order to return to college for a third or fourth year, she must have passed during the previous year a total of twenty-four semester hours with grades sufficient to entitle her to twenty-four quality points. Summer school credits may be counted in this total.

In meeting these requirements, the total number of semester hours must represent the number of hours actually passed with a grade D or above. No grade of E (Conditional failure) may be counted.

WITHDRAWAL OF STUDENTS FROM THE COLLEGE

If at any time in the session a student is found to be lowering either the intellectual or moral tone of the institution, she will be asked to withdraw.

CREDIT FOR SUMMER SCHOOL WORK

Any student desiring to take summer courses at an institution other than Flora Macdonald and to receive credit therefor toward graduation must first have the approval of the professor in whose department she wishes to receive credit. THRU-LINER
ALR CONDITIONED
ALR RIDE THE TRAILWAY

Such courses must be of college grade taken in a summer school conducted by an institution of equal rank with Flora Macdonald College, and only such credit will be given as would be allowed toward graduation by the institution conducting the summer school. The student must present from the office of the Registrar of the institution in question a statement of the courses taken and their value toward graduation.

GUIDANCE AND COUNSELING

STUDENT COUNSELING

Flora Macdonald College maintains a counseling program that aims at helping each student solve her personal, academic, and vocational problems from the time she applies for admission to her graduation.

Pre-college counseling is under the direction of Dean Hazel Morrison, Director of Admissions. Prospective students are invited to discuss with her their college needs and plans, and, if desired, arrangements may be made to take aptitude and content examinations designed to guide the applicant in her academic and vocational decisions.

Upon admission to the College, the student receives general academic and personal counseling from the experienced faculty members, headed by Dean Price H. Gwynn, Jr. Each freshman is assigned a counselor who assists her in becoming oriented to campus life and in planning her academic program. The counselor confers periodically with the student concerning her academic progress, and is the immediate source of help to which the student may turn for discussion of her personal problems.

Prior to the beginning of the fall semester, there is a four day Orientation Period for all freshmen and transfer students. This time is devoted to explanation of the college regulations and traditions, the campus and the community. Also, entering students take a series of tests which serve the student and her counselor in planning the college program for each individual. A well-balanced social program is also a part of Orientation Week. In addition to this formal program, seminars and discussion groups are planned during the first semester to consider personal, social, and academic problems.

General vocational counseling is under the supervision of the Director of Guidance, serving the student directly or through her counselor or adviser. The entering freshman is given a battery of general aptitude and achievement tests, which serve as a basis of later counseling. A complete file of aptitude and vocational tests is available for all students in the Counseling Office, and may be taken without cost.

READING CENTER

In order to aid students who are having special difficulties in getting the meaning from the printed page, a Reading Center has been established under the supervision of the Director of Guidance. Any student desiring help in diagnosing her reading problems and in undertaking remedial measures may use this service. Counselors and instructors refer students to the Center for help. Any student wishing to improve her reading skills, even though she has no special difficulty, may also use the facilities of the Center. The Reading Center is located in the Guidance and Counseling Office.

PLACEMENT SERVICE

Flora Macdonald College offers vocational placement service to senior students and in a limited degree to alumnae.

The Bureau of Teacher Placement is directed by Professor Mary MacLean Conoly. This Bureau collects the information and credentials of those desiring the service and makes them available to interested school administrators. Where possible, administrators are invited to the college campus for interviews with the teaching candidates.

The Bureau of Vocational Placement, other than Teacher Placement, is under the supervision of the Director of Guidance. This Bureau serves as a clearing house for information on openings in business, industry, government service, and graduate study. It arranges interviews between interested seniors and representatives from these fields. It also makes known to students summer employment opportunities when such information is available.

GUIDANCE AND COUNSELING CENTER

RODGER W. DECKER, Director

Flora Macdonald College was the first college to coöperate with the General Assembly of the Presbyterian Church U. S. in establishing a Guidance and Counseling Center. This department works closely with the Department of Christian Vocation of the Board of Christian Education, in offering the advantages of a modern, Christian Guidance Center to persons outside of the college community.

This is an individual, scientific, Christian service, aimed to aid young people in their search for God's will in their lives. Realizing that every occupation can be a Christian calling, this Center aids youth in determining their vocational interests, vocational aptitudes, mental abilities, and personality characteristics. This is accomplished by means of standardized tests, personal conferences and assigned readings.

Young people are urged to make use of this Center during their Junior year of High School. Appointments may be made through any Presbyterian minister or by writing directly to the Guidance and Counseling Center. In as much as two days are needed for this program, meals and lodging for persons who must travel long distances may be secured at the college and in near-by homes. There is no cost to the counselee other than for food and lodging. This service is available to both boys and girls and is also open to older persons who might benefit from this experience.

DEGREES AND REQUIREMENTS

The College offers courses leading to the following degrees: Bachelor of Arts, Bachelor of Music, and Bachelor of Science.

Candidates for each degree are required to complete with an average grade of C one hundred and twenty semester hours of work exclusive of applied courses in Physical Education. As C gives one point for each semester hour of credit, this qualitative requirement is equivalent to one hundred and twenty quality points. A student who fails to attain this standard may take additional courses of juniorsenior rank until the deficiency is removed.

THE BACHELOR OF ARTS DEGREE

A candidate for the degree of Bachelor of Arts should complete the basic requirements as outlined below.

1.	Bible12	semester	hours
2.	Biology, Chemistry, Physics	semester	housr
3.	English12	semester	hours
4.	Foreign Language12	semester	hours
5.	Latin or Mathematics	semester	hours
6.	Psychology 201	semester	hours
7.	History	semester	hours
	Total62	semester	hours

Advanced courses in subjects listed above may be delayed until the junior year, but all other courses should be completed by the end of the sophomore year.

To fulfill the foreign language requirement, the student may choose any foreign language offered by the college.

If Latin is chosen in place of Mathematics, a second foreign language must be selected.

Students taking Chemistry and Physics are advised to take Mathematics 101, College Algebra.

The student electing an applied music course must also take a theoretical course in order to receive credit toward a degree. Following are suggested arrangements of courses leading to various fields of study which the student electing the Bachelor of Arts course may wish to pursue.

Not later than the spring of her sophomore year the student must select the department in which she wishes to major. The requirements in each major field are given at the beginning of the description of the courses offered in that department. The student must complete a minor of not less than eighteen semester hours. The additional number of hours required for graduation may be chosen from such courses as she may desire, provided all necessary requirements have been met. In choosing electives the student should seek to secure breadth of study.

To meet individual needs and interests, a student may arrange her own program and submit it to the Dean of the College for approval.

A student who has a deficiency in English usage should remove this deficiency as early as possible.

SUGGESTED ARRANGEMENT OF COURSES FOR BACHELOR OF ARTS DEGREE WITH A MAJOR IN MUSIC

This course is planned for the student who wishes a general cultural background in music as well as in the other liberal arts, but who does not plan either to become a skilled technician or to teach music.

An academic minor must be completed.

The electives offered above must be taken in the field of liberal arts.

A student majoring in music is not required to take more than six semester hours in Science.

A student wishing to earn a minor in Music may do so by taking Music 101-102 (8); Music 105-106 (2); Applied Music 101-102 (4); Applied Music 201-202 (6).

PROFESSIONAL AND PRE-PROFESSIONAL PREPARATION

TEACHER EDUCATION

The Department of Education conceives its purpose to include these major functions: (1) The selection and guidance of prospective teachers; (2) The professional education of teachers through study and experiences planned to develop those understandings and techniques related to teaching; (3) Assistance in the placement of teachers in suitable positions so as to secure the best possible teaching and the maximum of professional growth.

Prospective teachers are offered the opportunity to qualify for certificates to teach in the elementary and secondary schools of North Carolina and other states. The student who intends to teach should confer with the Dean of the College and the Department of Education early in her sophomore year, and should inform herself concerning requirements for teachers' certificates in the state in which she wishes to teach. Full cooperation is given by the College in this matter, but the meeting of certification requirements remains the responsibility of the individual student.

Should a student prefer to substitute a course in place of one required for a state certificate, she must secure permission from the Dean of the College and the Head of the Department of Education.

Opportunity for guided observation and supervised teaching is provided for qualified seniors in the public schools of the area.

Any prospective teacher who has a deficiency in English usage, speech, reading, or any weakness apt to interfere with success in teaching, should remove such deficiency as early as possible.

REQUIREMENTS FOR THE DEGREE OF BACHELOR OF SCIENCE

BACHELOR OF SCIENCE IN MEDICAL TECHNOLOGY

The Bachelor of Science Degree in Medical Technology will be granted upon completion of three years of prescribed work at the college and certification from any one of the following Schools for Medical Technologists approved by the American Society of Clinical Pathologists:

Bowman Gray School of Medicine, Winston-Salem, N. C. Charlotte Memorial Hospital, Charlotte, North Carolina Medical College of Virginia, Richmond, Virginia Presbyterian Hospital, Charlotte, North Carolina Rex Hospital, Raleigh, North Carolina

The basic courses taken at the College must include the following:

- BIOLOGY: 18 quarter hours or 12 semester hours, which may include general biology, bacteriology, physiology, parasitology, anatomy, histology, embryology, or zoology.
- CHEMISTRY: One year of general inorganic chemistry (9 quarter hours or 6 semester hours), including lectures and laboratory; and 4 quarter hours or 3 semester hours of quantitative analysis, organic chemistry, or biochemistry, including lectures and laboratory.
- ELECTIVES: Sufficient to give a total of 90 quarter hours (60 semester hours) of college credit. The following courses are highly recommended, but they are not required: physics, a course in general mathematics, and typing.

BACHELOR OF SCIENCE IN NURSING

The Bachelor of Science Degree in Nursing will be granted upon the successful completion of two years of prescribed work at the college and graduation from the Presbyterian Hospital School of Nursing in Charlotte, North Carolina. Sixty-two semester hours of credit and sixty-two quality points are assigned to the courses carried in the Hospital in order to complete the minimum requirements of one hundred twenty-six semester hours and one hundred twenty-six quality points.

Credit: Three semester hours.

MISS ROBERTSON

415. THE TEACHING OF HISTORY. A course treating briefly the scope and aims of history, the organization of courses, methods of presentation, testing, and the study of material used in history.

Credit: Three semester hours.

MISS ROBERTSON

Not all courses listed above will be offered in any one year. A selection will be made, meeting as far as possible the needs and desires of students electing advanced courses.

SOCIAL SCIENCE

316. Introductory Sociology. An introduction to the study of American life in the current period of world change. A study is made of our leading institutions and the outstanding social problems of our day.

Credit: Three semester hours.

MISS ROBERTSON

321. GENERAL ECONOMICS. An introductory course which gives a survey of our present-day economic organization. Emphasis is placed upon the production and exchange of wealth.

Credit: Three semester hours.

MRS. NEIGHBORS

322. GENERAL ECONOMICS. A continuation of Economics 321. Emphasis is placed upon exchange and the proportionate share of wealth to be distributed among the primary factors of production.

Prerequisite: Economics 321.

Credit: Three semester hours.

MRS. NEIGHBORS

323. ECONOMIC GEOGRAPHY. A study of the natural resources and industries of major regions of the world with emphasis on manufacturing, mining, and trade and the effects of these on human relationships.

Credit: Three semester hours.

MRS. NEIGHBORS

324. NORTH AMERICA. A study of North America with emphasis upon the geographical factors affecting the political, economic and cultural development of this continent.

Credit: Three semester hours.

MRS. NEIGHBORS

417. CHRISTIAN MARRIAGE AND THE FAMILY. A study of the development of these two social institutions with consideration given to such problems as: Woman's position, courtship, marital adjustments, safeguarding the marriage relationship, divorce, and social changes affecting the family.

Credit: Three semester hours.

HOME ECONOMICS

MISS WOMBLE

MRS. CURRIE

104. Food Selection and Preparation. Emphasis in this course is placed upon standards of selection, preparation, and service of foods.

Lecture, one hour; laboratory, four hours, one semester. Laboratory fee: \$5.00.

Credit: Three semester hours.

MRS. CURRIE

201. MEAL STUDY. This course includes the study of planning, marketing, selection, storage, preparation, and serving of food for different occasions at different cost levels.

Lecture, one hour; laboratory, four hours, one semester.

Laboratory fee: \$10.00.

Credit: Three semester hours.

MRS. CURRIE

224. FOOD PREPARATION AND MEAL STUDY. The selection, purchase, storage, and preparation of food; the planning and serving of meals for different occasions at varying cost levels. Planned for non-majors.

Lecture, two hours; laboratory, two hours.

Laboratory fee: \$5.00.

Credit: Three semester hours.

MRS. CURRIE

305. HOUSEHOLD ECONOMICS. Principles and problems of the consumer-buyer; organization and management of household activities, time, labor, and income as they affect family relationships.

Lecture, three hours.

Credit: Three semester hours.

MRS. CURRIE

309. NUTRITION AND DIETETICS. Study of the nutritive requirements of the body for normal health and development, emphasizing the relationship of food to health and

efficiency; selection of food for various ages; dietaries for families of different incomes.

Lecture, three hours, one semester.

Credit: Three semester hours.

MRS. CURRIE

402. Home Management. A study of the place of management in homemaking and family life with special emphasis on labor and time saving methods, and factors that constitute household managerial ability.

Lecture, three hours.

Credit: Three semester hours.

MRS. CURRIE

This will be required of all Home Ec. majors as a parallel with Home Management Residence.

403. Home Management House Residence in home management house including meal planning and preparation at varying cost levels, organization, informal home entertaining. Required of all home economics seniors.

Laboratory fee: \$20.00.

MISS WOMBLE MRS. CURRIE

Credit: Three semester hours.

409. NUTRITION IN DISEASE. Required for dietetics majors. This course deals with nutrition as related to the more common diseases as well as disorders due to inadequate diets that may be corrected in the home.

Lecture, two hours; laboratory, two hours.

Laboratory fee: \$6.00.

Prerequisite: Nutrition 309.

Credit: Three semester hours.

MRS. CURRIE

Students should provide themselves with at least two white uniforms and hair nets to be worn in all laboratory classes in Foods and Nutrition. 412. CHILD DEVELOPMENT. A study of the physical, mental, and social development of the child. Theory and practice used in nursery school education. Laboratory observation of preschool child.

Prerequisite: Christian Marriage and Family 417.

Lecture, three hours.

Credit: Three semester hours.

MRS. CURRIE

103. CLOTHING SELECTION AND CONSTRUCTION. Fundamental principles in selection, purchase, and construction of clothing and textiles for the individual.

Lecture, one hour; laboratory, four hours.

Laboratory fee: \$3.00.

Credit: Three semester hours.

MISS WOMBLE

203. ART: COLOR AND DESIGN. A basic course in the field of design. Underlying principles of good design and color relationships are studied. Appreciation through observation and analysis, and experience in creative problems. Required of all home economics majors.

Lecture, one hour; laboratory, four hours, one semester.

Laboratory fee: \$3.00.

Credit: Three semester hours.

MISS WOMBLE

204. COSTUME DESIGN AND CONSTRUCTION. The application of art principles to dress designing and the construction of garments from designed patterns.

Prerequisites: Clothing 103 and Art 203.

Lecture one hour; laboratory four hours.

Laboratory fee: \$3.00.

Credit: Three semester hours.

MISS WOMBLE

307. Family Clothing. Problems in selection of clothing for the family from view point of design, color, and economy.

Lecture, three hours.

Credit: Three semester hours.

MISS WOMBLE

310. The House and its Furnishings. A study of the house as a unit and the relationship of its integral parts based on the needs of families of varying incomes. Attention is given to design, floor plans, site, cost, legal matters, and landscaping. Emphasis is placed upon the application of art principles to problems in furnishings and decoration and desirable qualities in merchandise for the home.

Lecture, one hour; laboratory, four hours.

Laboratory fee: \$3.00.

Credit: Three semester hours.

MISS WOMBLE

407. CLOTHING CONSTRUCTION. Advanced techniques in clothing construction; pattern adaptations; skills developed through problems in tailoring.

Prerequisites: Clothing 103 and 204.

Lecture, one hour; laboratory, four hours.

Laboratory fee: \$3.00.

Credit: Three semester hours.

MISS WOMBLE

408. Textiles. The study of textiles from raw materials through construction, identification, analysis, choice, use, and care of fabrics.

Lecture, two hours; laboratory, two hours.

Laboratory fee: \$3.00.

Credit: Three semester hours.

MISS WOMBLE

415. METHODS OF TEACHING HOME ECONOMICS. This course includes a survey of Home Economics education, methods, classroom procedures, evaluation and teaching aids in Home Economics.

Lecture, three hours.

Credit: Three semester hours.

MISS WOMBLE

MATHEMATICS

MISS SOWDER

Major Requirements: Eighteen semester hours in advance of Mathematics 201.

101. COLLEGE ALGEBRA. A brief review of elementary algebra, followed by a study of quadratic equations, progressions, binomial theorem, theory of equations, partial fractions, and determinants. Three weekly meetings.

Credit: Three semester hours.

102. PLANE TRIGONOMETRY. Identities, the sums and differences of angles, multiple angles, inverse functions, right and oblique triangles, etc.

Credit: Three semester hours.

201. PLANE ANALYTICAL GEOMETRY. A study of the point, straight line, circle, conic sections, and higher plane curves.

Credit: Three semester hours.

202. ANALYTICAL GEOMETRY OF THREE DIMENSIONS. Coordinate systems of space, the plane, the line, the quadric surfaces, and the theory of space curves and surfaces.

Credit: Three semester hours.

301. DIFFERENTIAL CALCULUS. This course includes the theory of limits and the differentiation of functions with applications to geometry and physics.

Credit: Three semester hours.

302. Integral Calculus. A continuation of Mathematics 301. Includes the integration of functions with applications to geometry and physics.

Credit: Three semester hours.

303. COLLEGE GEOMETRY. The geometric constructions, the notable lines, points and circles associated with the plane triangle. Recommended for prospective teachers of mathematics.

Credit: Three semester hours.

304. Introduction to Mathematical Statistics. Mathematical foundations of elementary statistical methods and their applications. An introduction to probability; discrete and continuous distributions; correlation, regression, and statistical independence; foundations of sampling theory; significance tests.

Credit: Three semester hours.

401. THEORY OF EQUATIONS. Polynomials, Sturm's Theorem, systems of linear equations, ruler and compass constructions, and determinants.

Credit: Three semester hours.

402. ADVANCED CALCULUS. Partial differentiation, definite and multiple integrals; series expansions, and other selected topics.

Credit: Three semester hours.

403. DIFFERENTIAL EQUATIONS. Classification and solution of common types of ordinary differential equations.

Credit: Three semester hours.

415. THE TEACHING OF MATHEMATICS. This course is designed to provide prospective teachers of mathematics with some definite fundamental principles concerning the presentation of mathematics to the high school student. It does not count toward the major.

BIOLOGY

Major Requirements: Biology 101, 102, and at least nineteen semester hours to be chosen from the following: Biology 302, 304, 305, 306, 307, 308, 310, 401, 402.

Required supplementary course, Geography 321.

The laboratory fee for each course in science, with the exception of Bacteriology, will be \$5.00 per semester. The fee for Bacteriology will be \$10.00. A breakage deposit of \$5.00 is required of all Bacteriology students at the beginning of the year. The fee will be returned at the end of the year less the actual amount of breakage.

101. GENERAL ZOOLOGY. An introduction to the fundamental principles of animal biology. A study of the morphology, physiology and relationships of representative forms of animal life.

Lecture, three hours; laboratory, two hours.

Credit: Four semester hours.

MISS HAWSE

102. GENERAL BOTANY. A study of the morphology and physiology of higher plants, followed by a survey of the plant kingdom.

Lecture, three hours; laboratory, two hours.

Credit: Four semester hours.

DR. HANSEN

201. General Biology. Elementary biological principles based on laboratory study of selected forms of animal and plant life. Required of B.S. students majoring in Home Economics.

Lecture, two hours; laboratory, two hours.

Credit: Three semester hours.

MISS HAWSE

302. COMPARATIVE ANATOMY. A study of the comparative morphology and relationships of chordates.

Lecture, two hours; laboratory, four hours.

Prerequisite: Biology 101.

Credit: Four semester hours.

MISS HAWSE

304. HUMAN PHYSIOLOGY. A study of the normal activities of the human body.

Required of B.S. students majoring in Home Economics.

Elective for B.A. students.

Lecture, four hours.

Prerequisite: Biology 101 or 102, or 203.

Credit: Four semester hours.

DR. HANSEN

305. Bacteriology. A study of the morphology and physiology of the micro-organisms, especially bacteria, and their relation to man. Laboratory training in the essential techniques of media preparation, sterilization, cultivation, isolation and identification of bacteria. Water and milk analyses are included.

Lecture, two hours; laboratory, four hours.

Prerequisites: Biology 101, or 102, or 203.

Credit: Four semester hours.

MISS HAWSE

306. BIRD STUDY. A course dealing with the native and migrant birds of North Carolina, their characteristics and habitats.

Laboratory, two hours, occasional lectures.

Credit: One semester hour.

DR. HANSEN

307. PLANT MORPHOLOGY. The structure and relationship of plants.

Lecture, one hour; laboratory, four hours.

Prerequisite: Biology 102.

Credit: Three semester hours.

DR. HANSEN

308. TREES AND SHRUBS. A study of the native trees and shrubs of the Carolinas.

Laboratory, four hours, occasional lectures.

Credit: Two semester hours.

DR. HANSEN

310. FIELD BIOLOGY. Identification, habitat, and characteristics of the plants and animals in this area. The course is of value to prospective teachers and others interested in nature study.

Lecture, two hours; laboratory, two hours.

Credit: Three semester hours.

DR. HANSEN

401. GENETICS. A study of the science of heredity together with its application to human society.

Lecture, three hours.

Prerequisite: Biology 101, 102 or 203.

Credit: Three semester hours.

MISS HAWSE

402. EMBRYOLOGY. A study of the pre-natal development of the vertebrate, based on laboratory observation of the chick embryo.

Lecture, two hours; laboratory, four hours.

Credit: Four semester hours.

MISS HAWSE

415. THE TEACHING OF HIGH SCHOOL SCIENCE. A course designed to give the prospective teacher a more thorough knowledge of the subject and of the desirable methods of teaching it.

Prerequisites: a background of science courses.

Credit: Three semester hours.

DR. HANSEN

Not all courses listed above will be offered in any one year. A selection will be made, meeting as far as possible the needs and desires of students electing advanced courses.

CHEMISTRY

Major requirements: Twenty-four semester hours of Chemistry. Related minor of not less than eighteen semester hours. At least twelve semester hours of mathematics are recommended.

The laboratory fee for each course in Chemistry is \$5.00 each semester. A breakage deposit of \$2.50 for Chemistry 101-102, and \$5.00 for all other Chemistry courses is required at the beginning of each course. This fee will be returned at the completion of the courses less the actual amount of breakage.

101-102. GENERAL CHEMISTRY. Fundamental laws and theory.

Lecture, three hours; laboratory, two hours.

Credit: Eight semester hours.

DR. LEVESCONTE

201-202. ORGANIC CHEMISTRY. An introduction to the chemistry of carbon compounds.

Lecture, three hours; laboratory, two hours.

Prerequisite: Chemistry 101-102.

Credit: Eight semester hours.

DR LEVESCONTE

203. ORGANIC CHEMISTRY. A brief study of carbon compounds for students who do not plan to major in chemistry.

Lecture, two hours; laboratory, two hours.

Prerequisite: Chemistry 101-102.

Credit: Three semester hours.

DR. LEVESCONTE.

301-302. QUANTITATIVE ANALYSIS. Methods and theory of volumetric and gravimetric analysis.

Lecture, one hour; laboratory, six hours.

Prerequisite: Chemistry 101-102.

Credit: Six semester hours.

DR. LEVESCONTE

303. QUALITATIVE ANALYSIS. The systematic separation and identification of the familiar metallic ions and acid radicals, using semi-micro technique.

Lecture, one hour; laboratory, six hours.

Prerequisite: Chemistry 101-102.

Credit: Three semester hours.

DR LEVESCONTE

304. Physiological Chemistry. A study of the composition and chemical process of the body tissues.

Lecture, two hours; laboratory, two hours.

Prerequisite: Chemistry 201 or 203.

Credit: Three semester hours.

DR LEVESCONTE

415. THE TEACHING OF HIGH SCHOOL CHEMISTRY. This course provides the prospective teacher of chemistry a familiarity with the classroom procedures and available teaching aids for High School Chemistry.

Lecture, three hours.

Credit: Three semester hours.

The number of elective courses offered in any one year will be determined by the needs and desires of the students.

PHYSICS

The laboratory fee for each course in Physics is \$5.00 each semester. A breakage deposit of \$2.50 is required at the beginning of each course. This fee will be returned at the completion of the course less the actual amount of breakage.

301-302. GENERAL PHYSICS. A study of the properties of mechanics, heat, sound, light, magnetism, and electricity.

Lecture, two hours; laboratory, four hours.

Prerequisite: Mathematics 101-102.

Credit: Eight semester hours.

Dr. LEVESCONTE

303. HOUSEHOLD PHYSICS. A study of the physics involved in the common household appliances.

Lecture, two hours; laboratory, two hours.

Credit: Three semester hours.

DR. LEVESCONTE

GEOGRAPHY

321. Physiography. A study of the physical features of the earth and their relationship to man. Special attention is given to a study of the southeastern part of the United States.

Credit: Three semester hours.

Dr. HANSEN

324. NORTH AMERICA. A study of North America with emphasis upon the geographical factors affecting the political, economic and cultural development of this continent.

Credit: Three semester hours.

MISS POOL

The Conservatory of Music offers the following degrees:

Bachelor of Music with a major in Piano, Organ, Violin, or Voice.

Bachelor of Music with a major in Church Music.

Bachelor of Music Education.

Bachelor of Arts with a major in Applied Music.

Credit in Applied Music is based on hours of practice, one semester hour being granted for each six hours per week of practice during a semester, plus the necessary instruction—one hour or more per week. It is understood that credit is not earned unless final examinations are passed. Examinations in applied music will be conducted by the faculty at the end of each semester.

The requirements for entrance and graduation as set forth in the catalogue are in accordance with the published regulations of the National Association of Schools of Music of which the Conservatory is an institutional member.

The above course is planned for the purpose of preparing students for full-time or part-time service as ministers of music and organists in the church. The student will choose either organ or voice as a major applied subject, with a subsidiary emphasis on voice or organ, as the case may be. A student who is mainly interested in voice, but who has had insufficient training in piano to begin the study of organ, will be required to make up her piano deficiency before she is permitted to study organ. In addition to an adequate technical preparation it is expected that the graduate will have developed a high appreciation of worshipful music in all of its aspects.

In view of the educational work which a minister of music must perform in her chosen field, it is recommended that she elect at least six semester hours in the field of religious education.

In further consideration of the various needs and limited resources of many of the smaller churches, it might be wise for students majoring in this course to elect a course in shorthand and typing.

This course is planned for those who wish to prepare themselves as teachers of Public School Music. Candidates for this degree must have completed sufficient piano study to enable them to play creditably at sight the accompaniments of school songs and choruses.

The course in Instrumentation 416, which is given in alternate years, may be taken by juniors in place of Chorus.

In choosing an applied music course the student will continue for at least two years in the field of applied music for which she shows the greatest adaptability and the most effective preparation. After that time she may vary her study to include other fields which she may need in her chosen profession. She should inform herself concerning the requirements for teachers' certificates in the state in which she plans to teach.

CLASS COURSES OF INSTRUCTION

101-102. THEORY OF MUSIC. A combined course including ear-training and sight-singing, dictation, written and keyboard harmony.

Five hours a week throughout the year.

Credit: Eight semester hours.

105-106. MUSIC APPRECIATION. A cultural course for B.A. and B.S. students as well as B.M. students, to develop a comprehensive appreciation of the art of music and the intelligent listening to music.

Two hours a week throughout the year.

Credit: Two semester hours.

201-202. Theory of Music. A continuation of 101-102. Five hours a week throughout the year.

Credit: Eight semester hours.

301-302. COUNTERPOINT. A practical study of the various contrapuntal methods and modes including single and double counterpoint.

Three hours a week throughout the year.

Credit: Six semester hours.

303-304. FORM ANALYSIS. A study of musical forms beginning with the phrase and continuing through the major forms.

Two hours a week throughout the year.

Credit: Four semester hours.

305-306. HISTORY OF MUSIC. A general survey from the Greeks to modern times in lectures, reading, discussions, and recordings.

Three hours a week throughout the year.

Credit: Six semester hours.

401-402. Composition. Practical composition with emphasis on such modern procedures as the unresolved dissonance, chord-building in 4ths, polytonality, atonality, and tone-row.

Two hours a week throughout the year.

Credit · Four semester hours.

403-404. PIANO PEDAGOGY. A study of methods and materials of pianoforte literature.

One hour a week lecture.

Two hours a week practice teaching.

Credit: Four semester hours.

405. Voice Pedagogy. A study of methods and materials used in teaching vocal technique. Practical experience in the application of methods in small voice classes of students not studying voice privately. Open to junior and senior voice majors, public school music majors, and church music majors whose applied music emphasis is in voice.

Two hours a week. First semester only.

Credit: Two semester hours.

406. Song LITERATURE. A survey of the development of song literature from the Renaissance-Baroque to the modern and contemporary period with representative period works and composers studied. Emphasis is placed on acquiring a broad knowledge of vocal repertoire for all voices. Program building, song analysis and classification are studied.

Two hours a week. Second semester only.

Credit: Two semester hours.

407. ORGAN METHODS. Required for all Organ and Church Music Majors. A general survey of the history, construction, and literature of the organ. Special emphasis

to be placed on registration, modern teaching materials, and the organ music of Bach.

Open to Juniors and Seniors.

Two hours a week. First semester only.

Credit: Two semester hours.

408. SERVICE PLAYING. The organization and performance of the church service from the organist's point of view. Special attention to hymn playing, modulation, simple improvisation, the accompaniment of anthems and sacred solos, and the formation of the service as a complete unit.

Open to Juniors and Seniors.

Three hours a week. Second semester only.

Credit: Three semester hours.

412. CONDUCTING. The organization and direction of choral and instrumental groups in the public schools. Repertoire for the various ages will be evaluated. Emphasis on conducting and rehearsal techniques.

Two hours a week, one semester.

Credit: Two semester hours.

413-414. Church Music. A historical study of traditional and modern practices in representative forms of worship, with emphasis on the relationship of music to the liturgy of the service. A survey of the hymns of the Christian church, with their music, from the earliest sources to the Wesleyan Movement and contemporary hymnody.

Three hours a week throughout the year.

Credit: Six semester hours.

416. Instrumentation. A study of the instruments of the symphony orchestra. The orchestration of simple music with emphasis on the demands and capabilities of the high school orchestra. Given in alternate years.

Two hours a week. Second semester only.

Credit: Two semester hours.

420. MATERIALS AND METHODS FOR CHURCH CHOIRS. The organization and direction of the multiple choir program in the local church. Anthems, responses and chants will be evaluated. Emphasis on conducting and researsal techniques.

Three hours a week. Second semester only.

Credit: Three semester hours.

College Chorus. The College Chorus is chosen by individual audition from the entire student body. Secular as well as sacred music is sung, but emphasis is placed on the music of the church. The music programmed for the chorus' sacred concerts is representative of all periods and all branches of the Christian faith. Tours are scheduled for the group each year so as not to interfere with the academic work of the student. A scholastic average of C + or better must be maintained by students for the continuance of membership. Transfers who do not offer sufficient choral credit must make up the required hours in some other field of applied music. Laboratory fee: \$2.00.

Three rehearsals a week throughout the year.

APPLIED MUSIC

REQUIREMENTS IN APPLIED MUSIC

Each student on entering the college division, will be given a placement test in applied music by the head of the department in which she will major. If she is a voice or organ major, a piano examination will also be given. The examination will consist of the performance of a composition chosen by the student and a simple exercise in sight reading.

HEALTH AND PHYSICAL EDUCATION

MISS BATEMAN

Dr. Johnson

MISS LAVINER

Mrs. Powers

On entering college each student is given a thorough medical and physical examination by the College Physician, Nurse, and Physical Education Director.

Each student is required to take physical education for three years. It is the responsibility of the student to see that this course is included in her program of work. Also, each student is directed to take not less than forty-five minutes of outdoor exercise each day.

The following activities are offered under the management of the Physical Education Director and the Athletic Association:

Fall months: Volley ball, archery, tennis.

Winter months: Basketball, badminton, table tennis, bowling, and rhythmics.

Spring months: Playground baseball, tennis, archery, hiking, horse shoes, and rhythmics.

A tournament in all sports is held in season. Also a May Day Festival is given in the spring.

The regulation gymnasium outfit, which includes two washable suits, one pair of socks, one pair of shoes, may be secured at the college for approximately \$12.25.

101-102. NATURAL GYMNASTICS, SPORTS AND DANCE.
